      This will contain class information, due homework and links.

Attendance

      I will take attendance at the start of each class.

Grading

      Homework (20%) I'll assign certain questions to be handed in.

      Chapter Tests (40%) One for each of the four chapters we cover. Test questions will be similar to homework questions.

      Final (30%) The final will cover all the material in the course. It will be held some time in Finals Week: May 16 - 23.

      Project (10%) I'll assign class projects in March.

General Advice

      The key to doing well in this class is to spend time working on the problems in the text at the end of each section - especially the suggested homework problems listed on the syllabus and the questions I assign to be collected. Actually doing them will give you an understanding of the material you can't get just by reading your notes or the book. Check your answers at the back of the book or with me.

      If you have any questions or concerns, talk to me after class. If you need more help please come to my office hours or set up a time to meet. Also don't forget the ***Math Tutoring Lab***. You can just walk in and get help.

      Math Tutoring Lab, CP 303
      Monday – Thursday, 10 am – 8 pm
      Friday – Sunday 10 am – 3 pm.

This is the usual Lab schedule – see *http://fsw01.bcc.cuny.edu/mathdepartment/TutoringLab/Lab.htm*
for this semester's opening times.
