Class Information

Meetings

Room: NI-407

Time: M, T, Th 4:00 -5:50 PM

Instructor

Professor George Leibman

Office: CPH-312

Hours: Tues 3:00 - 3:50 PM, Wed 5:00 - 5:50 PM (Other times by appointment.)

Phone: (718)289-5414 (x5414 on campus)

Email: gleibman@optimum.net

Text

Elementary and Intermediate Algebra (Fifth Edition)

Baratto, Bergman and Hutchison, McGraw-Hill

Grades

The work in this class will consist of:

1. Ten weekly quizzes, to be given roughly every three class days, that is, once per week for normal weeks. These will cover material from the previous week of class. The two lowest quiz scores will be dropped for grading purposes. (These, together with the homework, will comprise 50% of your midterm grade and 65% of your final grade.)
2. All assigned homework problems, which will be handed in, graded, and returned with comments. Each assignment will be graded on a scale from 0 to 10. The total of homework scores will be used to count as the equivalent of two quizzes. (When a section of the book has been covered in class, you are responsible for doing the suggested exercises for that section listed in the syllabus.)
3. A midterm exam (50% of the midterm grade)

4. A multiple choice final exam. This is a CUNY-wide test of competency in elementary algebra. The CUNY final exam is 35% of the final grade, and all work done in class counts for 65%. Grading for MTH05 is either P (pass) or R (repeat). You must have an average of 70 or better as your final overall grade in the class in order to pass MTH05.

Mathematics Tutorial Lab

The Mathematics Tutorial Lab is a valuable resource for assistance with homework and review for quizzes and exams.

Tutorial Lab Room: CPH-303

Hours:

Monday-Thursday: 10:00 AM - 8:00 PM

Friday: 10:00 AM - 5:00 PM

Saturday-Sunday: 10:00 AM - 3:00 PM

Ground Rules

1. You must show all work used in arriving at your answers.
2. In quizzes, and for the midterm and final exams, using calculators or other electronic devices is prohibited.
3. In studying and doing homework, you are encouraged to work together to help each other understand concepts. But any copying from someone else, or from somewhere else, and then claiming it is your own work, is cheating and in violation of BCC's academic integrity standards. A grade of zero will be given for homeworks that duplicate each other. To avoid plagiarism, material that is not your own must be acknowledged by citing its source. The BCC Writing Center is available for guidance on standards for academic writing.
4. All work, whether homework, quizzes, or midterm or final exam, must be done in pencil or erasable pen. All other work will not be accepted.
5. Attendance is important. Enrolling in this class is a commitment and a responsibility to take all steps to learn the material, especially coming to class. If any student incurs more than six unexcused absences, that student will be encouraged to drop the class to avoid receiving a failing grade.
