

BRONX COMMUNITY COLLEGE
of the City University of New York
DEPARTMENT OF MATHEMATICS AND COMPUTER SCIENCE

SYLLABUS

MTH 28.5 – College Algebra and Elementary Trigonometry (Corequisite) (3 credits/ 6 hours)

Prerequisite: None. Students with Math Proficiency Index less than 40 are strongly encouraged to enroll in Math Start or CUNY Start, before taking college-level mathematics courses.

Textbooks: 1. Intermediate Algebra 2e, by Lynn Marecek and Andrea Honeycutt Mathis, OpenStax
<https://openstax.org/details/books/intermediate-algebra-2e>

2. Precalculus by Jay Abramson, OpenStax
<https://openstax.org/details/books/precalculus>

Course Description: Fundamentals of elementary, intermediate and college algebra essential for the study of pre-calculus and calculus. Topics include linear equations, polynomials, factoring, roots and radicals, rational expressions, quadratic equations, the function concept, and the trigonometric ratios. This course is equivalent to MTH 28 in academic content and for the purposes of transfer and grade replacement.

This course is a **Pathways Core B (Mathematical and Quantitative Reasoning) Course:**

This course meets the following learning outcomes. A student will:

- a) Interpret and draw appropriate inferences from quantitative representations, such as formulas, graphs, or tables.
- b) Use algebraic, numerical, graphical, or statistical methods to draw accurate conclusions and solve mathematical problems.
- c) Represent quantitative problems expressed in natural language in a suitable mathematical format.
- d) Effectively communicate quantitative analysis or solutions to mathematical problems in written or oral form.
- e) Evaluate solutions to problems for reasonableness using a variety of means, including informed estimation.
- f) Apply mathematical methods to problems in other fields of study.

Student Learning Outcomes: Upon completion of this course, students will be able to:

1. Perform operations of integer, fractions, polynomials, rational expressions, radical expressions, expressions with rational exponents, and complex numbers (a, b, d)
2. Solve linear equations and inequalities, rational equations, radical equations, and factorable polynomial equations (b, d, e)
3. Solve quadratic equations by factoring, by completing the square, and by the quadratic formula (b, d, e)
4. Demonstrate fluency with function notation. (a, c, d)
5. Translate word problems involving modeling with functions and quadratic equations (c, d, f)
6. Solve right triangle trigonometry problems (a, b, d, e)
7. Form models to apply them in the solution of real-world problems involving trigonometry (a, c, d, f)

Grading Guidelines:

Homework:	15%
Class participation:	10%
Quizzes or tests:	20%
Midterm:	25%
Final Exam:	30%

Additional details will be provided by your instructor.

Academic Integrity: Academic dishonesty (such as plagiarism and cheating) is prohibited at Bronx Community College and is punishable by penalties, including failing grades, dismissal and expulsion. For additional information and the full policy on Academic Integrity, please consult the BCC College Catalog.

Accommodations/Disabilities: Bronx Community College respects and welcomes students of all backgrounds and abilities. In the event you encounter any barrier(s) to full participation in this course due to the impact of a disability, please contact the disAbility Services Office as soon as possible this semester. The disAbility Services specialists will meet with you to discuss the barriers you are experiencing and explain the eligibility process for establishing academic accommodations for this course. You can reach the disAbility Services Office at: disability.services@bcc.cuny.edu, Loew Hall, Room 211, (718) 289-5874.

If you test positive for COVID while taking an in-person/hybrid course:

- Using your BCC email account, please email all your **in-person and/or hybrid** professors of your status.
 - Please include your emplid # and current phone number in your email.
 - Please also email us at healthservices@bcc.cuny.edu .
 - Your professor will work with you to complete class work while you are in quarantine.
- You will be called by a Health Services staffer. It is critical that you connect in a timely matter with this staff member for contact tracing information.
- You will need to submit a negative COVID test to Health Services (healthservices@bcc.cuny.edu) before you are allowed access to the campus.
- Your negative test result must come from your doctor or a medical provider (e.g. CityMD, Urgent Care, etc.). We will **not** accept a negative home test result.

	SECTION AND TOPICS	RECOMMENDED EXERCISES ¹
Intermediate Algebra 2e text		
Week 1	1.2 Integers	39/63-66, 71-110, 119-126
	1.3 Fractions	54/143-166, 173-182, 209-224, 229-234
Week 2	2.1 Use a General Strategy to Solve Linear Equations	113/5-26
	2.3 Solve a Formula for a Specific Variable	147/165-194
	2.5 Solve Linear Inequalities	186/296-317
Week 3	3.1 Graph Linear Equations in Two Variables	252/9-28, 33-68
	3.5 Relations and Functions (Only the function notation)	328/307-332
Week 4	5.1 Add and Subtract Polynomials	503/1-28, 33-46, 53-68
	5.2 Properties of Exponents and Scientific Notation	528/81-126, 131-155, 162-173
	5.3 Multiply Polynomials	545/178-271
Week 5	5.4 Dividing Polynomials	560/288-315
	6.1 Greatest Common Factor and Factor by Grouping	582/9-50
	6.2 Factor Trinomials	600/61-130, 135-152
Week 6	6.3 Factor Special Products	615/159-190, 213-220
	6.4 General Strategy for Factoring Polynomials	625/233-246, 249-256
	6.5 Polynomial Equations	641/277-326
Week 7	Midterm Review and Exam	
Week 8	7.1 Multiply and Divide Rational Expressions	666/1-24, 29-44, 49, 50
	7.2 Add and Subtract Rational Expressions	682/75-142
Week 9	7.3 Simplify Complex Rational Expressions	695/151-194
	7.4 Solve Rational Equations	709/197-230
Week 10	8.1 Simplify Expressions with Roots	771/1-15, 19-22
	8.2 Simplify Radical Expressions	789/55-65
	8.3 Simplify Rational Exponents	805/119-162
	8.4 Add, Subtract, and Multiply Radical Expressions	818/165-168, 183-186, 191-214(only @)
Week 11	8.5 Divide Radical Expressions	832/245, 246, 259-262, 271-282
	8.6 Solve Radical Equations	846/287-304, 315-326
	8.8 Use the Complex Number System	868/409-476
Week 12	9.1 Solve Quadratic Equations Using the Square Root Property	893/1-30
	9.2 Solve Quadratic Equations by Completing the Square	909/75-101
	9.3 Solve Quadratic Equations Using the Quadratic Formula	923/113-136
Precalculus text		
Week 13	Right Triangle Trigonometry (Only in degree measure)	495/10-41, 52-56
Week 14	Final Review	

YH/IP/AW 01/27/22
1/23 COVID

¹ The instructor will provide additional details on assignments.
