

NYSMATYC MATH League Contest

*Can you do it?
Oh, yes! Definitely!*

Date: Thursday, November 8

Place: CPH 308

Time allotted: one hour (during club hours)

Eligibility: any student, who doesn't have a bachelor's degree

Level of problems: pre-calculus and below

Training Session: Thursday, October 25th at CPH308 (during club hours)

***What if you do poorly?**
So what?! Nobody will find out, there will be many students who won't score 100, and you will have seen interesting and challenging problems!*

***Is it worth trying?**
Of course!
You will see problems you won't see in class. They are not hard, just different.
Curious about them?*

Come try it!

In a nice, calm and friendly environment. It is not a course test; no grades that can affect your GPA! However, if you earn a prize, you should put it in your CV/Resume/application when applying to another college!
