

**Kerry Ojakian's CSI 31 Class**  
**Due Date: Thursday August 31 by noon**  
**Class Assignment #0**

**General Instructions:**

- Work individually.
- Classwork must be put in your dropbox folder. Make sure you give clear names to your files and folders.

## **The Assignment**

1. Create a folder named "Classwork" in your dropbox. Then create a subfolder named "Class00" in Classwork. Put your answers to this assignment in the Class00 folder.
2. Write any program as long as it has more than one line (keep it simple!).
3. Write this program using a text editor, to get a ".py" file.
4. Write the same program using Jupyter Notebook, to get a ".ipynb" file.
5. So in Class00 there should be the two files: the .py file and the .ipynb file
