

Kerry Ojakian's CSI 31 Class

Class Assignment #1

General Instructions:

- You may work in a group of at most 3 students.
- Choose ONE person in your group - put this work in that person's dropbox.
- In dropbox, both programs should be in folder Classwork/Class01
- When you are done, email me to tell me who's folder the class work is in; also, tell me who is in your group.

The Assignment

For both of the programs, there should be clean asking for user input and giving informative output. Submitted work should always be .py source code unless otherwise stated.

1. Modify the averaging program to find the average of three numbers.
2. Write a program that converts distances measured in kilometers to miles (one kilometer is 0.62 miles).
