

Kerry Ojakian's CSI 32 Class Class Assignment #7

General Instructions:

- You may work in a group of at most 3 students.
- Classwork must be put in a your dropbox folder; if there are multiple parts, create a single folder for the class assignment. Make sure you give clear names to your files and folders. Make sure that you indicate all the people in your group.
- When you are done, *email me* to tell me who's folder the class work is in; also, tell me who is in your group. Without this email, you may not get credit for the assignment!

The Assignment

Write a program using tkinter that opens a window with the following widgets arranged in a nice fashion (use at least one Frame widget).

Count button: Starts with 0 and when clicked on it increases by 1.

Reset button: When clicked on, it changes the value in the count button to 0.

Quit button: When clicked it closes the window.
